Subject: Oneida County Access / Water Usage

Tom,

Per Section 6. of our Purchase Agreement we agree that Badger Minerals, LLC and their representatives have the right of ingress and egress and the right to drill on the Property. Additionally we grant permission to use Stockley Creek as a water source. The County or State may raise issues with the use of that water source that are not presently known to the landowner but the landowner is comfortable with the Buyer and its representatives proposed use of Stockley Creek.

Regards,

Sam Rorabaugh
Director, Timberland Transactions
